## Front-End Developer (Reactjs & Vuejs)

### - ABOUT ME -

I am a skilled Front-End Developer with over 3 years of experience building modern, responsive, and high-performance web applications. I excel at translating design concepts into pixel-perfect UIs, integrating RESTful APIs, and optimizing web performance. I am eager to learn and adapt to new technologies, ensuring that the applications I develop are both scalable and maintainable.

### - PROFESSIONAL EXPERIENCE -

#### Front-End Developer | Uniparticle

(August / 2024) – Present

- Developed the **TEU** logistics website, handling most of the client-side UI, responsiveness, and functionality and supporting in building the sales side.
- Improved the **OPD E-learning** platform, fixing some issues and adding some other new features for the learner, editor, and the mentor sides, I led a complete revamp of the learner dashboard, introducing a new UI and functionality.
- Enhanced the **EVG** dashboard UI, responsiveness, and fixing some issues.
- Provided support for additional projects, including **Watira.ai** and **Mafaza**.

#### Freelancer | Upwork

(March / 2023) - (August / 2024)

- Worked on multiple freelance projects, including enhancing website responsiveness and converting Figma designs into functional web pages, receiving 5-star client feedback.

### - SKILLS -

- |                   |                     |                |
|-------------------|---------------------|----------------|
| • ReactJS         | • VueJS             | • Javascript   |
| • Redux-toolkit   | • Vuex              | • Typescript   |
| • Version Control | • Bootstrap5        | • Tailwind.css |
| • MaterialUI      | • HTML5             | • CSS3         |
| • SASS            | • REST API          | • Webpack      |
| • Figma           | • Responsive Design |                |
